As a heavy user of commercial free radio AKA XM and a user of on demand traffic and weather (also on XM) I do not want sanctions imposed on XM for their ability to provide me for services I have the right to pay for. I have 2 radio's mobile throughout the workday and do not want to listen to the public airwaves. I am paying for this the NAB lobby (talk about special interest) should not be bullying you or the congress to support their baseless cause. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve and pay for.. (whatever happened to enterprising entrepreneurs being rewarded.....)
